**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bradley Groff on 09/25/08.

2. Applicant's reply filed on 07/25/08 in response to the election requirement mailed on 06/25/08 is acknowledged. Applicant's arguments are persuasive and as such the election requirement has been withdrawn.

The application has been amended as follows:

**CANCEL CLAIMS 8, 9 and 22**

**Amend CLAIM 1 as follows:**

A lancing device comprising:

a drive mechanism comprising a drive spring and a carrier driven by the drive spring; and

a lancet that is decoupled from the drive mechanism and slidably floats relative to the carrier during at least a portion of a lancing stroke,

further comprising a housing defining an axial chamber,

wherein the carrier comprises:

a carriage slidably received in the housing chamber, the carriage defining a bore that slidably receives the lancet; and

one or more wings extending outwardly of the housing, wherein the lancing device is armed by retracting the wings to a cocked position with the carrier in a retracted position,

further comprising one or more struts extending between the carriage and the wings, and projecting through one or more slots in the housing, wherein, after the lancing device is fired but before the lancet reaches an extended position, the carrier is stopped by the carrier struts engaging one or more stop surfaces defined by the housing slots.

**AMEND CLAIM 21 as follows:**

A lancing device comprising:

a housing;

a lancet defining at least one contact surface;

a drive mechanism including a drive member that engages and drives the lancet;

and

an endcap that rotates relative to the housing and that has a plurality of stop surfaces that are selectively aligned with and engaged by the lancet contact surface to limit forward lancet movement,

wherein the drive member comprises a carriage that receives the lancet and that has a flared proximal section defining a flared bore that receives the endcap stop surfaces not aligned with and engaged by the lancet body engagement surface.

**AMEND CLAIM 25 as follows:**

The lancing device of Claim 21, wherein the lancet body includes at least one radially extending arm defining ~~the~~ at least one lancet key member and also defining the at least one lancet contact surface.

3. The following is an examiner's statement of reasons for allowance: The closest art of record is Fukuzawa (US 6,929,650), Duchon (US 5,964,718), Hamamoto (US 6,730,046) and Tezuka (US 5,569,287), which disclose lancets that decouple from the drive mechanism to slidably float during a portion of the lancet stroke. However none of the references alone or in combination disclose a carrier having a carriage and wings for cocking along with struts that extend between the carriage and the wings, through slots in the housing, wherein after the lancing device is fired but before the lancet reaches an extended position, the carrier is stopped by the carrier struts engaging one or more stop surfaces defined by housing slots. None of the references alone or in combination disclose a drive member comprising a carriage having a flared proximal bore that receives endcap stop surfaces not aligned with and engaged by the lancet body engagement surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ELIZABETH HOUSTON whose telephone number is (571)272-7134. The examiner can normally be reached on M-F 9:00-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Todd Manahan can be reached on 571-272-4713. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
